

Think Zone

The idea of this zone is that you take some time out and spend it with God thinking, praying and listening.

Below are some questions based on the theme from Today's Harvest Celebration to help get you started.

“Living in a way that honours rather than threatens the planet is living out what it means to be made in the image of God.....What we face today is nothing less than a choice about how genuinely human we want to be- Dr Rowan Williams”

1. What do you think about this statement by Rowan Williams? Do you agree/disagree? Why?
2. What does the bible tell us about our response to food injustice and creation care?
3. What are some actions that we can take to make a difference? What do you think about those that were suggested in the service? How can we make good quality food available for everyone to afford?

Has God spoken to you this morning? Maybe write down what you feel God is saying to you then act on it.
