

Think Zone

The Think zone is to help you do just that, think and spend time with God. We used the beginning of the service to explore God's creation and the environment. The questions below are a starting point for you to think through some of the issues raised.

- What thing/s about creation cause you to be thankful?
- Joel 21 v 21 & 22 begin "Do not be afraid" – what emotions come to mind when you think about the climate crisis and our care of creation?
- What new/next step could you take in caring for God's creation?
 - Ideas could include:
 - Recycling more
 - Gardening in ways that encourage diversity of life
 - Being more energy efficient
 - Eating more sustainably
 - Reducing fossil fuel use in travel
 - Campaigning for environmental issues
- We also used Psalm 19 at the beginning of the service which begins 'The heavens declare the glory of God; the skies proclaim the work of his hands. Day after day they pour forth speech; night after night they reveal knowledge.' How do you see this happening in your everyday life
